

## Literacy

At the beginning of this half term, the children will reflect on their holidays in order to create a piece of writing. We will also share *The Day the Crayons Quit*, and encourage the children to write in role. Using our theme of 'In the Garden', the children will explore a range of fiction and non-fiction texts to learn all about the plants and animals found in the garden. We will be planting seeds to help us with writing our very own set of instructions, and we will explore a variety of lifecycles. We will share stories such as *The Bad Tempered Ladybird* and *Jack and the Beanstalk* to help us create our own pieces of writing.

## Numeracy

This half term, we will continue to learn and develop our strategies for the four operations, including working mentally and using a range of written methods. We will also continue with our non-negotiable skills of learning our doubles and halves, bonds to 10 and 20, and 10 more and 10 less of a given number. The children will be expected to apply this knowledge within their mathematical enquiry.

The children will build upon their reasoning and problem solving skills. We will spend time solving problems and explaining our answers and discussing patterns that we find.
