

COVID Catch-Up Premium Plan and Report Academic Year 2020-2021

FUNDING

Funding allocation (Mainstream Schools)

Schools allocations will be calculated on a per pupil basis, providing each mainstream school with a total of £80 for each pupil in years reception through to 11. Payments This funding will be provided in 3 tranches. We will provide schools with an initial part payment in autumn 2020, based on the latest available data on pupils. We will then distribute a second grant payment in early 2021, based on updated pupil and place data. Though funding has been calculated on a per pupil basis, schools should use the sum available to them as a single total from which to prioritise support for pupils according to their need. As the catch-up premium has been designed to mitigate the effects of the unique disruption caused by coronavirus (COVID-19), the grant will only be available for the 2020 to 2021 academic year. It will not be added to schools' baselines in calculating future years' funding allocations.

Use of funds

Schools should use this funding for specific activities to support their pupils to catch up for lost teaching over the previous months, in line with the guidance on curriculum expectations for the next academic year. Schools have the flexibility to spend their funding in the best way for their cohort and circumstances.

Accountability and monitoring

As with all government funding, school leaders must be able to account for how this money is being used to achieve our central goal of schools getting back on track and teaching a normal curriculum as quickly as possible. Given their role in ensuring schools spend funding appropriately and in holding schools to account for educational performance, governors and trustees should scrutinise schools' approaches to catch-up from September, including their plans for and use of catch-up funding. This should include consideration of whether schools are spending this funding in line with their catch-up priorities, and ensuring appropriate transparency for parents. (DfE guidance - Coronavirus (COVID-19) catch-up premium - updated 24/08/2020)

COVID Catch-up Premium Funding Summary

COVID Catch-up Premium Funding Summary

FUNDING INFORMATION			
Total number of pupils:	REC - 61 KS1 - 121 KS2 - 120	Amount of catch-up premium received per pupil:	£80 per pupil
	(NUR – 52 FTE)		
Total catch-up premium budget:	£24,880		

PROPOSED SPEND				
Date	Autumn 2 budgeted cost:	Spring budgeted cost:	Summer budgeted cost:	Total
Quality First Teaching	£4400	£6128 £8100 £9300	- £2800	£10528 £12500 £16500

Other Approaches	£442	£6145 £610	£120 £2100	£6707 £3152
			Proposed Spend to Date	£27072

COVID Catch-up Premium Strategy

- Context
- Priorities
- Barriers to Learning
- Planned Investment

CONTEXT

Spring and Summer 2020

- In the initial lockdown period in spring/summer 2020, the vast majority of children from Reception to Year 4 engaged with the detailed online learning that the school provided.
- During the second part of the summer term, 130 children returned to school to be educated.
- Adhering to government guidelines, as well as no parental demand, our school was fully closed over the summer holiday period which meant that no school based, or remote learning, took place over the summer break. This was crucial in terms of teacher workload and their mental health and emotional wellbeing. All families were able to access year group blogs and home learning ideas via www.archibaldfirstschol.org.uk

Autumn 2020 September 2020

- Upon returning in September 2020, Archibald First School families are actively engaged from the onset of the academic year.
- Only 1 family failed to return in September 2020 due to their personal COVID anxiety; they have since taken on the role of Home Educating their child and
 have removed the child from the school roll. 1 family did not return due to being classed as extremely Vulnerable and were therefore shielding; as of the
 local lockdown, a second family identified as extremely vulnerable have also been advised to shield. The three children involved are in irregular
 communication with their class teachers and receiving daily work.
- All our new starters in Reception and Nursery joined us and have made a successful start to life at Archibald.
- To date, attendance has been stable across all year groups upon return.
- Our proportion of disadvantaged pupils across the school is relatively low compared to both a local and national picture.

Autumn Term December 2020

- Staff have worked to deliver high quality teaching and learning throughout the Autumn term.
- An end of term analysis considering the individual, group, class and year group attainment, progress and achievements both academically and holistically actions has been completed by each year group team.
- Children's mental health and emotional wellbeing have been carefully considered; all children took part in a wellbeing survey in December 2020.
- The academic strengths and areas to address document for each year group has been updated in both Autumn 1 and Autumn 2; Subject Leaders have analysed the information for trends.
- Key stage leaders have identified overall strengths and areas to address for their phase (EYFS, KS1 and KS2)
- From the above information; plans for Spring term have been devised and shared with the school staff.

CONTEXT

Spring Term February 2021

- School opened for one day only 4th January 2021.
- UK entered Lockdown 3 5th January 2021.
- School opened to critical key worker and vulnerable children 6th January 2021.
- 35% of children in school, 65% of children receiving home learning.
- · Vast majority of children engaging with home learning.
- Staff have delivered high quality home learning. Home Learning Offer shared with all families and available on the school website.
- Children have received marking and feedback on all work.
- Parent Questionnaire sent and reviewed February 2021 feedback overwhelmingly positive.
- School response with refinements to home learning offer sent 3.2.21.
- School working to further expand provision through supply teaching.
- Staff contacting children via TEAMS live communication and phone calls.

Spring Term April 2021

- As of 22.2.21, 45% of children were attending school, 55% of children were receiving home learning.
- Staff continued to monitor children's engagement in home learning.
- Home learning was RAG rated prior to the return to school.
- School opened to all children as of 8th March 2021. 334/336 children returned to school the week of 8th March.
- Attendance 7.9-20-1.4.21 was 97.91%.
- After three weeks, teaching staff analysed the curriculum coverage for their own class. This has been used to devise the next steps for teaching and learning during the summer term.
- An end of term analysis considering the individual, group, class and year group attainment, progress and achievements both academically and holistically actions has been completed by each year group team. This has been used to devise the next steps for teaching and learning during the summer term.
- DHT has collated this information to build on the information from Autumn 1 and Autumn 2.
- A Social, Emotional and Mental Health audit has been carried out for the school provision and this included the children's voice. Next steps have been devised for the summer term. Staff voice will be collated in the summer term too.

PRIORITIES

Our Catch-Up Priorities

Our catch-up priorities are aligned to our Recovery Curriculum Strategy where we endeavor to help children come back into school life, whilst acknowledging and being mindful of the experiences that they may have had.

- Mental Health and Wellbeing set aside time to enable teachers to assess pupils' wellbeing and learning needs. Identification and awareness of our community's needs (now and as they evolve) will ensure that teachers and other school staff can provide effective support.
- **Curriculum Deficit** quality first teaching is the most important lever schools have to improve outcomes for their pupils. In addition, this will be supplemented by high-quality one to one or group tuition as a catch-up strategy alongside other targeted interventions.
- **Families** provide extensive pastoral support to pupils and families throughout the pandemic. Regular and supportive communications with parents/carers, especially to increase attendance and engagement with learning.

Overall Aims:

- To raise the achievement of all pupils to counteract lost learning created by COVID-19 school closures.
- The mental health and wellbeing needs of pupils, and staff, are met and supported by the school.

Revised Aims Summer 2021:

- To focus on the achievement of all pupils to ensure that they are next year ready for September 2021.
- The mental health and wellbeing needs of pupils, and staff, continue to be met and supported by the school.

BARRIERS TO LEARNING

ACADEMIC BARRIERS:

A Lost learning creating a curriculum deficit from the academic year 2019-20:

Some children have missed 14/38 weeks of schooling.

School will need to use Autumn 1 and Autumn 2 baseline and end of term assessments to ascertain exactly where all children are in relation to their age-related learning in Reading, Writing, Maths and Phonics.

Update:

As of 8.3.21, some children have accessed school for 14/22 weeks and home learning for 8/22 weeks between 7.9.20 and 8.3.21. This is in addition to the time in school missed in 2019-2020.

B Every child a reader:

A small proportion of our pupils may have had limited access to reading materials and/or parental support with their reading since March 2020 and therefore, their reading ages may be lower than expected when baseline assessments are completed.

Lost of direct phonics teaching and the daily application of reading skills may have impacted on our children's reading confidence, enjoyment and ability.

A lower reading ability will impact negatively on a child's learning across the curriculum.

EXTERNAL BARRIERS:

C School routines and expectations:

Children and young people may need support to settle back into school and class routines.

Limited concentration may be evident due to lack of structured learning experiences since school closures in March 2020.

D Mental Health and well-being of our children and young people:

Staff need to provide opportunities to gain a greater understanding of children's mental health and wellbeing in order to be able to help and support children who may have been adversely affected by closures and COVID-19.

School needs to reestablish open communication lines between home and school to build, and revive the vital home school partnership which will positively impact on the children.

Together we must work to ensure our children are resilient, independent learners which will impact on their progress & attainment; their achievement.

E	Family Dynamics and Work Commitments: The vast majority of our families have both parents working: Home working in conjunction with home learning places added strains on families. Family and home life dynamics have very likely changed for many of our families. Some children do not come from supportive family homes.
G	Access to Home Learning and Family Support:
	A small proportion of our pupils do not have access to technology beyond a Smartphone; access to technology to support home learning in the event of closures is needed.
	Responding to parental feedback and government requirements; learning can be developed further during this academic year to improve access to learning at home for all pupils.
Н	Communication:
	Due to lockdown and diminished social interactions, our children will have had limited access to high quality communication beyond their immediate home environment, opportunities to develop their skills of speaking and listening and a reduced amount of high-quality modelling of communication from anyone other than their immediate family.
	Many of our children joining Nursery/ Reception will have lost 6 months of their time at an Early Years setting (playgroup/toddlers/childminders/EYFS groups). Children have communicated with adults wearing a mask, they have had limited interaction with peers (if any) and due to being in the home environment children have developed even stronger attachment ties to parents/carers (links to resilience and emotional)

Only once we have addressed the children's emotional health, their resilience, confidence, relationships and so forth; are we in the position to successful address lost learning and effectively make up any curriculum deficit.

Review

February 2021

- Sustained progress made by children across the school community with HA children making rapid progress. See PPM Strengths and Weaknesses Autumn review for further details.
- Vibrant curriculum has encouraged children to engage and reintegrate with school life whilst allowing for extended PSHE sessions to aid the return to school.
- SLT reviewing home learning curriculum and planning ways forward for spring 2.

April 2021

- Due to quality home learning and the high level of engagement from children at home, classes are mostly on track for curriculum coverage. Staff have clearly identified any areas to be covered or revisited and have planned how this will be achieved.
- Attainment and progress are both on a steady trajectory with end of year predictions secure.
- During the lockdown an exceptionally high proportion of our vulnerable learners were in school. This has had a significant impact on their progress and attainment. Key support has been employed for these children through the lockdown. As a result of this, the support can now be focused on other children during the first part of the summer term following staff analysis of the needs of their classes.
- Monitoring of literacy, numeracy and phonics is due to take place in summer 1.
- See Strengths and Weaknesses Document Updated Spring 2.

July 2021

Review

February 2021

- 1-1 tuition sessions did not take place as we had to isolate Y2, Y3 and Reception so decided to reduce the risk of transmission across the school.
- NELI The assessment was not completed for ALL children before Christmas due to time constraints. This was okayed by the programme as a lot of other schools were in the same position. Staff training in preparation for delivering the programme is also time consuming and the focus had to be on the children in the learning environment. 60% of the NELI assessment by the end of Autumn 2. 3 additional children have been assessed during the national lockdown.
- From the recent print off of results nearly all the children are in the green zone. No child currently has been identified as a cause for concern.
- Our current plan is that we would maybe pick the lowest set of children to take part. However, administering this programme means those children have to take part in a daily 20-minute session which will be difficult whilst considering staffing and other catch ups that might need to happen.
- Reading incentives well received across the school community using the Reading Worms. This has improved attainment, progress and reading habits across the school.
- Online subscriptions have been well received by our children and families. Celebrations of Doodle Maths, TTRS and Lexia have been inconsistent perhaps due to the nature of working in schools during a pandemic (no celebration assemblies).
- Lexia has helped Y2 achieve sustained and rapid progress for some pupils, which resulted in many passing their Y2 phonics screen (84.5%).

April 2021

- 1-1 tuition is set to start for 6 children in summer 1.
- NELI assessments completed. No children were identified as needing the programme therefore staff have made the decision to target children using other interventions and strategies appropriate to their needs.
- Online subscriptions were well used during lockdown. Curriculum leads to analyse usage and, most crucially, the impact of these prior to reinvestment in the summer term 2021.
- Refocus TTRS usage in summer 1.

Review

February 2021

- Wellbeing needs were being met throughout Autumn term. Lockdown 3 has resulted in wellbeing issues from home arising. Due to circumstances, it is more challenging to provide support when the child is not accessing a school place. However, remote learning and MS Team Live Communication sessions to boost morale and wellbeing are steps in the right direction.
- Diana West continues to work 1-1 with children in school, contact families (children and parents) and contact Toddler families.
- Outdoor Learning more opportunities in EYFS with AH
- Home Learning established and well received by children and families. Survey completed wb 25.1.21, which will provide us with more concise feedback.
- Handwriting books ordered for EYFS, KS1 & individual KS2 children. Used in Autumn 2. Books in use by children. On return to school book 2 will be given to children.

April 2021

- Handwriting books continue to be utilized. Following end of Spring 2 analysis, year 3 will now use these books to support handwriting at home over the summer term.
- Diana West continues to prioritise working with the children in school. The re-opening of Toddlers has been postponed until summer 2 to allow for a final 6-week block with children in summer 2 following staff and parent feedback since the return to school. This will enable us to best meet the needs of the children in school.

July 2021
